

Cross Linking Machine Hire and Consumables

Intacs XL is a UVA collagen cross linking instrument designed with special focus on an intuitive usage, effective performance and above all, safety. Intacs XL is a UV irradiating device for performing a corneal cross-linking procedure at a wavelength at 365 nm and designed with an illumination intensity of 3.0mW/cm² with a working distance of 50mm.

Our machines are available to hire on an ad hoc basis. Please check which dates are available before booking a date with the patient (s). We advise that bookings are made at least one month in advance however we will try to accommodate short dated requests where possible.

Hire charges and order codes are as follows:

- £400 – Hire for one day **Order Code - INTACSXLHIRE**
- £300 – Hire deposit (credited upon return of the machine) **Order Code - INTACSXL Hire Deposit**

OUR MACHINES ARE CHECKED, TESTED AND CLEANED ON RETURN TO THE KESTREL OFFICE AND PRIOR TO DESPATCH

PLEASE NOTE THAT BREAKAGES WILL BE CHARGED FOR SUBJECT TO DISCUSSION WITH CUSTOMER

Additional Charges

Missed collection fee - **£15** (this will be charged if the machine is not ready for collection)

Cancellation fee - **£400** (the full hire charge will be applied if cancellation takes place once the machine has been despatched)

Logistics

The machine is despatched 5 working days prior to the booking via DPD Local courier. This is to ensure that any delays in transit can be accounted for along with ensuring our customers have the time to undertake all of their relevant checks prior to use.

Our standard carriage charge for this service (which includes collection) is £25 plus VAT.

We cannot send without a purchase order.

Collections are arranged for the next working day after your booking has taken place. A courier collection will be booked and a label with collection reference will be emailed for you to place onto the box.

Machine collections take place between 9am – 5pm on the next working day.

Specific collection times can be requested in advance

Deliveries and collections are made from your Stores Department, Supplies Department or Main Reception.

A Kestrel representative will attend the first initial sessions to assist with setting up the machine, machine usage and dismantling of the machine. Our representative will stop attending procedures once he/she feels comfortable that all theatre/clinic staff are confident with using the machine. A certificate of competence will be issued to all staff who attend the first sessions with the Kestrel representative. Any further support can be requested if required.

Consumables

We have a custom fully sterile cross link pack (**Order Code - JCP0007A**) which contains everything needed for one patient for **£42.80**, this pack contains;
